

# GALVA·DECK

## The Best In Wire Rack Decking

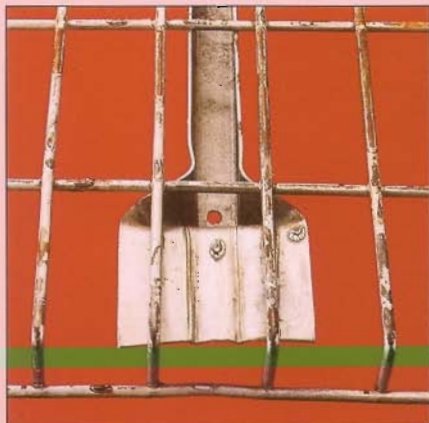

**J&L**  
Wire Products, Inc.

Compare GALVA·DECK Galvanized Rack Decking with ordinary, painted decking and the benefits are clear. Painted decking chips, scratches and corrodes with time causing an unsightly appearance and increased friction, while GALVA·DECK retains its appearance, surface integrity and your investment.

**The Competition**

## Bulk Storage

J&L wire decks for bulk storage are designed with waterfalls in the front and rear for safety when handloading. These waterfalls prevent clothing from catching and injury to hands and forearms.

Our lightweight storage decks are designed to fit on 5/8" step beams. These decks are produced with 3 - 4 wires running front to back on the underside of the deck providing added support.

**Bulk storage**

**Light weight bulk storage**

## Dividers

J & L's hanging dividers can be made to run front to back and left to right. These racks are designed to hook easily onto decks above.

**Dividers**

## Inverted Channels

Inverted channels are available for step and box beams to be used in clean areas. Our inverted channels will not fill with dust, dirt or any other particles, keeping your storage area cleaner .

## Flue Space Divider

Our flue dividers are designed to be used when loading products from both sides. These dividers also leave an area open in the middle for customers' sprinkler systems.

## Inside Waterfall

The inside waterfall design is intended to be used when the front or rear beams need to be open for bar coding. These racks are so ideal for use in tight areas.

## Standard Wire Decking

J & L's standard wire rack decking comes in 2" x 4" 4 gauge galvanized wire. Heavier wire is also available. Our channels are sturdy 14 gauge galvanized steel. All wire decks are made to your depth, width and load specifications. All of our wire deck capacities are based on evenly distributed loads.

Listen to what others have to say about GALVA•DECK

*I get immediate pricing over the phone and confirmations faxed to me in less than 30 minutes – very short lead times. J&L Wire has the lowest prices I've ever seen... period. When it comes to wire decking they're the best. Check them out.*

*Dan Newlin  
Inside Sales  
Badger Material Handling*

*I would like to take this opportunity to say Thank You! to everyone at J&L Wire. Not only is your service and support excellent with our largest customer, but also with each individual order.*

*Being familiar with different manufacturers of wire decks, J&L Wire's Galva•Deck is second to none. It's finish out lasts any competitive deck. If there's a deck out there better than J&L Wire's, I have not found it!*

*Tim Driscoll  
Creative Handling*
